Performance Report for Grants and Cooperative Agreements

ACADEMIC YEAR 2014-2015

**Instruction Manual for Grantees of the
Mental and Behavioral Health Education and
Training**

Semi Annual Performance Report 2

Welcome

Welcome to the Bureau of Health Workforce's Performance Measures Handbook (BPMH)! This instruction manual has been carefully designed to assist your organization in completing the required Performance Report for Grants and Cooperative Agreements (PRGCA). Please read through this manual carefully, as it contains examples and a series of step-by-step instructions that will aid you in completing all required forms.

Please note the following:

1. All required performance measures are linked to the following legislative purpose(s) of the **MBHET** grant program:
 - **Faculty development;**
 - **Curricula & Instructional Design / Program Enhancement;**
 - **Field Placements for MSW Students; and**
 - **Pre-degree internships for doctoral-level psychology students.**
2. Data submitted by grantees of the program must cover all activities that took place between **January 01, 2015 - June 30, 2015** (referred to as **Semi Annual Performance Report 2**)
3. **The PRGCA is due no later than July 31, 2015.** Failure to submit a PRGCA by this date may place your grant in a noncompliant status.
4. Officials at the Health Resources and Services Administration (HRSA) will review and approve all PRGCA submitted by grantees. In the case that revisions are needed, you will be granted the ability to reenter the BPMH system, make corrections, and submit a revised PRGCA. All revisions must be resubmitted within five (5) business days of the initial request. Failure to resubmit a revised PRGCA within five (5) business days may place your grant in a noncompliant status.

We appreciate your feedback and assistance during this process. All requests for technical assistance will be coordinated through the Call Center and responded to promptly. If you have any questions or require further assistance in completing your PRGCA, please visit the grants homepage or contact the HRSA Contact Center via:

- Phone at 877-Go4-HRSA / 877-464-4722 or

National Center for Health Workforce Analysis

Performance Metrics and Evaluation Branch

Getting Started

The Office of Management and Budget (OMB) has issued a 3-year approval for the semiannual collection of performance measures across all grants and cooperative agreements funded through the Health Resources and Services Administration's Bureau of Health Workforces (BHW) (OMB # **0915-0061**; Expiration Date: **05/31/2016**). The BPMH system has been significantly enhanced to incorporate all approved subforms, as well as increase system performance and functionality. Throughout the manual, there are several icons that identify tips and other important information which will assist you in completing each subform accurately (see below).

 Marks a warning statement. Please read information in **bold** carefully in order to complete each subform accurately.

 Marks a tip or important note for completing a specific Block or subform in the BPMH system.

 Marks the end of a subform and provides instructions for initiating required validations checks.

Due to the nature of semiannual reporting, the BPMH system has been recently enhanced so as to prepopulate specific Blocks within certain subforms with data submitted in a previous reporting period. In addition, a "View Prior Period Data" link has been added at the top of each subform in order to provide you with easy access to data submitted by your organization in prior reporting periods.

The screenshot shows a web interface for the BPMH system. At the top, there is a link labeled "View Prior Period Data" which is highlighted with a red rectangular box. Below this link, the text "Fields with * are required" is displayed. Further down, there is a section titled "★ Add Training Program" in a blue header bar. Under this section, there is a label "Select Type of Training Program Offered" with a subtext "(Click the 'Load Program Details' button after selecting your training program)". To the right of this label is a dropdown menu currently showing "Select One".

Block Number

Figure 2. Example of Performance Measures Data Table

There are two (2) types of data entry field identifiers. Each data entry field in a performance measure is identified with both types of numbers when the measure appears like the example in the above Figure.

Column Number: The first is a Column number. It is contained in parentheses above the Block number. Column numbers are unique to the field in a particular form and are used to identify error messages. If you receive an error message, it will refer to a Column Number. In that circumstance, find the Column number in the form to locate the error. Data fields that are prepopulated may only be identified with a Column number as shown in Column #1 in the above Figure.

Block Numbers: The second type of identifier is a Block number. Block numbers are also unique to a data entry field and correspond to the paper version of the performance measures. If you print the performance measures or received paper copies, the data fields are identified with a Block number. The Block numbers here in the EHB are the same as what appears in the paper copies of the performance measures. Nearly all fields where you enter data will be identified with a Block number.

Getting Started: Browser Settings

Warning: Check your browser settings before beginning your PRGCA. Incompatible browsers or incorrect settings will cause forms to display incorrectly.

- HRSA's Electronic Handbook system (EHB) is compatible only with certain Internet browsers that have specific settings. Please check your settings by logging into EHB and clicking the 'Recommended Settings' tab that appears in the yellow banner at the top left of your home screen. The system will check your browser and its settings for compatibility.
- There are multiple checks that are performed, and you must receive green check marks next to each setting in order to proceed. The following link will direct you to a page that displays the list of the checks performed: [Recommended Settings](#).
- Opening this link in your browser will automatically perform the recommended settings checks. Alternatively, you can access the recommended settings page in the EHBs system by clicking the 'Recommended Settings' tab on your EHBs home screen. It is highly recommended to check your settings prior to entering data in the BPMH system.
- Using different browsers or settings than what is described above may produce unpredictable results. If you find that you are unable to see dropdown menus, cannot enter data into a field, or a form is not appearing, you most likely have a browser compatibility problem.
- Please check these settings prior to calling the HRSA Call Center or your Government Project Officer. You may be asked to provide a screenshot showing the results of the 'Recommended Settings' tab.

Getting Started: Helpful Resources and Recommendations

The following is a list of resources and tips you may find helpful in the event you need assistance:

1. Begin PRGCA data entry early and submit your report prior to the deadline.
2. **Browser Settings:** Check your Internet browser and its settings by using 'Recommended Settings' tab on the EHB home screen within the yellow banner in the top left corner of the screen. Look for green check marks for all system requirements in order to meet system requirements and proceed.
3. **Reporting on Your Grant:** Several resources are available through HRSA's "Reporting on Your Grant" link <http://bhw.hrsa.gov/grants/reporting/index.html> including general EHB guidance as well as links to the performance measures and program manual.
4. **Resource Links:** Several resources are available via the 'Resource' tab on the EHB home screen including the following links:
 - View Prior Period Data- Previously submitted PRGCA data are available in read-only mode
 - Glossary- Current definitions of key terms
 - Instruction Manual- Electronic copy of this program manual (can also be found on the HRSA.gov website)
5. **Video Recordings:**
 - View recorded videos of how to enter data in the BPMH system: <https://help.hrsa.gov/display/public/EHBSKBFG/BPMH+Videos>
 - View the recorded TA webinar provided for your grant program. Please access the recording by using the link provided by your Government Project Officer.
6. **Grant Personnel:** Review your grant personnel listed in EHB and update this list as necessary. Ensure that listed personnel have appropriate authorizations (i.e., PRGCA submission, etc.). Make sure you have a backup person in place to submit your report!
7. **Sequence of Forms:** Complete PRGCA forms in the order they appear (i.e., complete EXP-1 prior to EXP-2; EXP-2, prior to EXP-3)
8. **Saving and Validating:** You must click 'Save and Validate' in order to move to the next form. Save your work frequently (every 15-20 minutes) and print a hard copy of your report prior to submission.
9. **HRSA Call Center:** If you need additional assistance, contact the HRSA Call Center using the contact information below. If you have contacted the Call Center and are waiting for a reply, you should follow-up with them 48 hours after the initial contact. Have your ticket number ready (the same ticket number will be used at all tier levels now). Do not wait for the Call Center to return a phone call or email.
 - Phone at 877-Go4-HRSA/877-464-4772; or
 - Click this link to send us your inquiry: [click here](#).
10. **Government Project Officers:** Contact your Government Project Officer if you need further assistance.

Order of Required Forms

The following table shows the order that subforms will appear throughout the BPMH system for your specific grant program. Please note that clicking on the "Save and Validate" button at the end of each subform will cause the system to check all Blocks for errors and route you to the next required subform on the list. If you need to go back to any subform for any reason, simply click on the Form ID on the left sidebar of the Electronic Handbook (EHB). Please note that changing data that has already been saved will require you to click on the "Save and Validate" button and go through the validation process once more.

Figure 3. Selecting Grant Purpose(s)

To configure the BPMH system, complete the Grant Purpose Setup form by selecting the specific type(s) of activities that were supported with grant funds during the semiannual reporting period (**January 01, 2015 - June 30, 2015**).

Warning: Some options in the Grant Purpose form will be automatically selected based on information provided in a previous reporting period. Unselecting a grant purpose will cause related forms and data to be deleted. If you need to unselect a grant purpose, contact your project officer first to ensure you do not unnecessarily lose any data.

Note: Selections made in this form will affect the types of subforms and/or drop-down menu options that will appear throughout the BPMH system.

To Complete the Form: Click on "Save and Validate" on the bottom right corner of your screen. If no errors are found, the BPMH system will automatically route you to the next required subform.

Training Program - Setup

Training Program Setup - Selecting Type of Training Program

Purpose: The Training Program Setup form will configure all subsequent subforms specific to internships and practica/field placements (depending on your grant).

The screenshot shows a web form titled "Add Training Program" with a red star icon. Below the title is a section labeled "Select Type of Training Program Offered" with a subtext "(Click the 'Load Program Details' button after selecting your training program)". A dropdown menu is open, showing the selected option "Degree/Diploma/Certificate Academic Training Program (Degree)". To the right of the dropdown is a button labeled "Load Program Details".

Select Type of Training Program Offered: Select the type of training program supported through the grant during the current semiannual reporting period by clicking on the drop-down menu and choosing one of the following options:

- Internship Program
- Practicum/Field Placement program

Warning: If you have no NEW training programs to add, proceed to the manual section entitled “Training Program Setup: Final Steps.”

Training Program Setup - Loading Program Details

The screenshot shows a web form titled "Training Program Setup - Loading Program Details". At the top left, there is a link "View Prior Period Data". Below it, a note states "Fields with * are required". A blue header bar contains the text "Add Training Program" with a red asterisk. The main form area has a label "Select Type of Training Program Offered" with a sub-note "(Click the 'Load Program Details' button after selecting your training program)". To the right of this label is a dropdown menu currently showing "Select One". To the right of the dropdown is a button labeled "Load Program Details", which is highlighted with a red rectangular border.

Figure 10. PC-4 - Entering Enrollment Information

Enter Total # Enrolled (whether funded by BHW or not): Total: In Column 4 (Block 3), enter the total number of students who participated in each internship program during the current semiannual reporting period. Count all students who participated in the internship program, regardless of whether or not the student directly received a BHW-funded financial award (i.e., stipend).

Enter Total # Enrolled (whether funded by BHW or not): URM: In Column 5 (Block 3a), enter the number of students who participated in the internship program during the current semiannual reporting period and were underrepresented minorities.

Enter Total # Enrolled (whether funded by BHW or not): Disadvantaged Background and not URM: In Column 6 (Block 3b), enter the number of students from disadvantaged backgrounds who participated in the internship program during the current semiannual reporting period but were not underrepresented minorities.

Note: Blocks 3a and 3b are subsets of Block 3.

Note: Students who permanently left their internship before completion (i.e. attrition) will be counted separately in Column 9 (Block 9).

Reference: Refer to the glossary for definitions of disadvantaged background and underrepresented minority.

Example: The John Doe School of Psychology had 18 graduate-level psychology students participate in internships during the current semiannual reporting period. Among the 18 graduate-level psychology students who participated, 9 were underrepresented minorities. In addition, 3 students were from disadvantaged backgrounds, but were not under-represented minorities.

- *In Column 4 (Block 3), the reporting official would enter 18.*
- *In Column 5 (Block 3a), the reporting official would enter 9.*
- *In Column 6 (Block 3b), the reporting official would enter 3.*

Enter Total # Who left the Program Before Completion (whether funded by BHW or not): Total: In Column 9 (Block 9), **enter the total number of students who permanently left their internships before completion** during the current semiannual reporting period. Count all students who permanently left their internship regardless of whether or not the student directly received a BHW-funded financial award (i.e., stipend).

Enter Total # Who left the Program Before Completion (whether funded by BHW or not): URM: In Column 10 (Block 9a), **enter the number of students who permanently left their internships before completion** during the current semiannual reporting period **and were underrepresented minorities**.

Note: Block 9a is a subset of Block 9. The total entered in Block 9 is exclusive of the total number of enrollees (Block 3).

Reference: Refer to the glossary for definitions of disadvantaged background and underrepresented minority.

Example:

The John Doe School of Psychology had 18 graduate-level psychology students participate in internships during the current semiannual reporting period. Among the graduate-level psychology students who participated in internships, 2 left the internship program before completion. Neither student was an underrepresented minority.

In Column 9 (Block 9), the reporting official would enter 2.

In Column 10 (Block 9a), the reporting official would enter 0.

Enter Total # Graduated/Completed (whether funded by BHW or not): Total: In Column 7 (Block 8), enter the total number of students who completed all practicum/field placement requirements during the current semiannual reporting period. Count all students who completed the practicum/field placement program, regardless of whether or not the student directly received a BHW-funded financial award (i.e., stipend).

Enter Total # Graduated/Completed (whether funded by BHW or not): URM: In Column 8 (Block 8a), enter the number of students who completed all practicum/field placement requirements during the current semiannual reporting period and were underrepresented minorities.

Note: Block 8 is a subset of Block 3; Block 8a is a subset of Block 8.

Note: Students who permanently left their practicum/field placement before completion (i.e. attrition) will be counted separately in Column 9 (Block 9).

Reference: Refer to the glossary for definitions of disadvantaged background and underrepresented minority.

Example: The John Doe School of Social Work had 18 graduate-level social work students participate in practicum/field placement programs during the current semiannual reporting period. Among the graduate-level social work students who participated in practicum/field placements, 3 completed all practicum/field placement requirements. Of those who completed practicum/field placements, none were underrepresented minorities.

- *In Column 7 (Block 8), the reporting official would enter 3.*

IND-GEN: Individual Characteristics

INDGEN - Introduction

Notice to Grantees about Individual-level Data

1. You must complete an IND-GEN subform for each student who received a BHW-funded financial award (i.e., stipend) during the semiannual reporting period.
2. In addition, semiannual updates are required for individuals who were previously reported on IND-GEN but were not marked as having completed or attrited from their training program by **June 30, 2015**.
3. For prior records, the BPMH system will prepopulate certain blocks in the IND-GEN subform with data submitted in previous reporting periods for each student, post-doctoral fellow, or faculty.
 - These fields will appear shaded in gray and will not be editable.
 - All other fields must be updated on a semiannual basis until each student or faculty completes or permanently leaves their training program.
4. The IND-GEN subform will automatically calculate and display read-only columns labeled “Academic Year Total” and “Cumulative BHW Financial Award Total.”
 - The Academic Year Total will sum the amounts entered for both semiannual reporting period across a given academic year.
 - The Cumulative BHW Financial Award Total will sum all amounts entered for this individual in the BMPH system since the beginning of AY 2012-13.
5. Records of students who were reported as having completed their training program in the previous semiannual reporting period will transfer from the IND-GEN subform to the INDGEN-GPC subform in the current semiannual reporting period. No action is needed on these records while in INDGEN-GPC.
6. Records will automatically transfer from the INDGEN-GPC subform to the INDGEN-PY subform when one (1) full calendar year has passed from the period of program completion.

IND-GEN - Setup

Warning: If you have used the INDGEN form before, this answer is pre-selected 'Yes' for you. You do not need to answer this question again.

To begin providing individual-level data for faculty members who received BHW-funded financial awards during the current semiannual reporting period or to provide updates for faculty members previously reported on IND-GEN, click "Yes" to the initial setup question. Clicking "Yes" will activate the embedded Excel form that will allow you to begin data entry.

★ Do you have either a) students, trainees or faculty who received direct financial support (e.g., scholarships, stipends, loans, loan repayment) from a HRSA-funded grant OR b) updates to provide for students or trainees who received direct financial support in a previous reporting period? **Yes**

(complete IND-GEN) (click Save and Validate button to proceed to the next form)

Experiential Characteristics—EXP Subforms

EXP - Introduction

1. Purpose: The EXP subforms are used to characterize experiential or clinical training characteristics, including training sites and the number and profession/discipline of trainees.

- The EXP-1 Setup form captures information about the names of sites used by grantees to provide trainees with clinical or experiential training
- The EXP-2 subform collects general information about each site that was entered in the EXP-1 Setup form.
- The EXP-3 subform collects information about the profession and discipline of individuals trained at each site that was entered in the EXP-1 Setup form.

2. Order of Subforms:

- EXP subforms **MUST** be completed in order, otherwise drop-down menus will not prepopulate correctly.
- You must complete and 'Save and Validate' EXP-1 first before proceeding to EXP-2.
- Likewise, you must complete and then 'Save and Validate' EXP-2 before proceeding to EXP-3.

3. Pre-population of Prior Records (training sites) reported previously:

- The BPMH system will prepopulate the names each site previously reported in the Saved Records Table within the EXP-1 subform.
- You must indicate whether each previously-reported site was used during the current semiannual reporting period.
 - **If "Yes" was selected**, the BPMH system will prepopulate certain blocks in the EXP-2 subform and display it as an option in the EXP-3 subform.
 - **If "No" was selected**, the BPMH system will not include the site as an option in the EXP-2 and EXP-3 subforms.

Warning: Complete the EXP-1, EXP-2 and EXP-3 subforms only for sites used to train individuals who appear on the INDGEN subform.

CDE - Introduction

- **For courses or other training activities that were reported previously and marked as "Under Development" or "Developed, but Not Yet Implemented":** The BPMH system will prepopulate certain Blocks in the CDE-1 subform. **Please note that all other Blocks must be updated on a semiannual basis until the course or training activity is marked as "Implemented."**
- **For courses or other training activities that were reported previously and marked as "Implemented":** The BPMH system will transfer these records to the CDE-1a subform. The only action required in this subform is to select whether the course or training activity previously implemented was also offered during the semiannual reporting period.

Warning: Both CDE-1 and CDE-1a must be completed and validated prior to beginning CDE-2. If you reach the CDE-2 form, and no drop-down selections appear, you have not validated both CDE-1 and CDE-1a subforms.

Continuing Education Activities—CE Subforms

CE - Introduction

Warning: Attention Users- Important changes have occurred with the CE-1 subform! Please read the following directions carefully.

1. Purpose: The CE subforms are used to characterize continuing education course characteristics as well as the number and profession/discipline of trainees.

- The CE-1 form captures information about the continuing education courses and training activities offered in the current reporting period.
- The CE-2 subform collects information about the profession and discipline of individuals trained in the offered CE courses or training activities.

2. Order of Subforms:

- CE subforms **MUST** be completed in order, otherwise drop-down menus will not prepopulate correctly.
- You must complete and 'Save and Validate' CE-1 first before proceeding to CE-2.

3. Pre-population of Prior Records (CE Courses) reported previously:

- The BPMH system will no longer prepopulate data into the CE-1 subform.
- Each reporting period, the CE-1 form will appear blank.
- The **ONLY** courses or activities to be entered are those that were offered during the current reporting period.
- To view data submitted in the previous reporting period, click on the "View Prior Data" link.

Appendix A: Glossary

This glossary contains general definitions for terms that are used throughout the BPMH system. Some terms may be defined in multiple ways by different programs due to their authorizing statutes and/or the nature of training activities offered. If you are unsure about how to define a term that is central to your program, please refer to the authorizing statute, the Funding Opportunity Announcement and/or your Government Project Officer for clarification.

Attrition is the act of permanently leaving a training program or training activity before completion. An individual is counted as having attrited if s/he leaves a training program or training activity for any reason before completing all training requirements.

BHW-funded financial awards are monies from a grant funded by BHW that are provided to an individual by a grantee institution or organization for the purposes of defraying costs associated with participation in a training program or training activity. The types and definitions of BHW-funded financial awards are listed below:

1. **Career Award:** A financial award provided to current faculty for the purposes of facilitating professional growth and advancement in the academic setting.
2. **Fellowship:** A financial award provided to a Fellow for the purposes of defraying costs associated with advanced training in a specific content area.
3. **Scholarship:** A financial award provided to a student enrolled in a degree program at an educational institution for the sole purpose of covering expenses associated with tuition.
4. **Stipend:** A financial award provided to an individual for the purposes of defraying costs associated with a training program or training activity.
5. **Traineeship:** A financial award provided to a student enrolled in an advanced training program at an educational institution for the purposes of defraying costs associated with advanced training in a specific content area.
6. **Loan:** A financial award provided to a student enrolled in a degree program at an educational institution for the purposes of defraying costs associated with that degree program. Loans must be repaid in accordance with terms specified in a promissory note.
7. **Loan Repayment:** A financial award provided to an individual that is conditional on their agreement to provide specific types of services for a specified amount of time. Under this agreement, an individual may have part or all of their student loans paid off so long as they meet all specified requirements.

Campus-based degree program is a degree program that requires students to complete all academic coursework at the college or university campus.

Contact hours are the number of hours that an individual receives training in a specific setting.

Continuing education is a training activity or series of training activities offered to members of the **current** workforce who have already completed a training program in their profession. Generally, continuing education sessions are offered to existing professionals and do not include or target students as primary participants.

Curriculum is the aggregate content of multiple learning activities offered by an organization a specific topic area. Commonly, the term curriculum is used to describe the number and type of academic courses within a degree program. The term can also be used to describe the number and type of learning activities for faculty and other non-degree related training programs.

Didactic training is the process of instruction between a designated faculty and an individual or group of individuals.

Direct financial support program is a type of grant that provides individuals, via grantee organizations, with a BHW-funded financial award to help defray costs associated with participation in a training program or training activity.

Disadvantaged background is a citizen, national, or a lawful permanent resident of the United States or the District of Columbia, the Commonwealths of Puerto Rico or the Marianas Islands, the Virgin Islands, Guam, the American Samoa, the Trust Territory of the Pacific Islands, the Republic of Palau, the Republic of the Marshall Islands and the Federated State of Micronesia who either:

- Comes from an environment that has inhibited the individual from obtaining the knowledge, skill, and abilities required to enroll in and graduate from a health professions school, or from a program providing education or training in an allied health profession; OR
- Comes from a family with an annual income below a level based on low income thresholds according to family size published by the U.S. Bureau of Census, adjusted annually for changes in the Consumer Price Index, and adjusted by the Secretary, HHS, for use in health professions and nursing programs.

Enhanced course or other training activity is a specific type of training activity that was in existence at the grantee institution or organization and has been modified or restructured as part of the grant project.

Enrollee is an individual who is actively matriculated or registered in a training program or training activity. For the purposes of performance reporting, the training category of "enrollees" does not include graduates, program completers, fellows or residents.

Ethnicity is the ethnic ancestry or origin of an individual or group of individuals. For the purposes of performance reporting, the Office of Management and Budget requires that ethnicity be classified as "Hispanic or Latino Origin" and "Non-Hispanic or Latino Origin". Individuals identifying as "Hispanic or Latino" are of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin regardless of race.

Experiential training is the process of instruction between a designated faculty and an individual or group of individuals that includes a component of direct work experience.

Faculty is an individual or group of individuals who have been deemed qualified by an organization to provide instruction to others on a specific topic area.

Faculty development activity is generally a stand-alone single training activity provided to faculty for the purposes of additional training and/or faculty development. Faculty development activities can include conferences, workshops or grand rounds and do not necessarily have to be offered at or by the grantee institution or organization. It is the same as an “Unstructured faculty development activity”.

Faculty instruction are those courses, workshops, seminars, grand rounds or other training activities that are led by faculty for the purposes of providing training to other individuals (e.g., students, fellows, residents). Faculty instruction does not refer to training activities undertaken by faculty for the purposes of additional training or faculty development (see Structured Faculty Development Program and/or Unstructured Faculty Development Activity).

Federally Qualified Health Centers (FQHC) are public and private non-profit health care organizations that meet certain criteria under the Medicare and Medicaid Programs (respectively, Sections 1861(aa)(4) and 1905(l)(2)(B) of the Social Security Act and receive funds under the Health Center Program (Section 330 of the Public Health Service Act).

Fellowship is a training program that provides an individual or group of individuals (known as "fellows") with advanced training in a general content area. Fellows generally receive a financial award to help defray costs associated with advanced training (also referred to as a "fellowship").

Full-time refers to the number of days per week and/or months per year representing full-time effort at the applicant/recipient organization, as specified in organizational policy. For a student, it means a student who is enrolled full-time as defined by the organization. The organization's policy must be applied consistently, regardless of the source of support.

Graduate is an individual who has completed all requirements for a degree-bearing training program at an educational institution.

Hybrid degree program is a degree program that requires students to complete academic coursework at the campus, as well as through distance learning.

Instructional hours are the duration of a training activity or training program in clock hours.

Infrastructure program is a type of grant designed to enhance the scope, quality, and opportunities for health professions training programs or training activities. Infrastructure programs do not provide individuals with any type of BHW-funded financial awards.

Internship is a type of training activity that can either be a(n): a) component of a degree-bearing program or b) entry-level employment that provides an individual with relevant workforce experience.

Interprofessional education is the process of learning among a group of individuals from two (2) or more professions.

Interprofessional practice is the provision of care or services to an individual or group of individuals by workers from two (2) or more professions.

Medically Underserved Community (MUC) is a geographic location or population of individuals that is eligible for designation by a state and/or the federal government as a health professions shortage area (HPSA); medically underserved area (MUA) and/or medically underserved population (MUP). These communities have limited access to primary health care services. The term MUC is an umbrella term that can be used to describe any location that meets one or more of the previously identified designations.

Multipurpose/Hybrid program is a type of grant that is designed to: a) provide individuals, via grantee organizations, with a BHW-funded financial award to help defray costs associated with health professions training; **and b)** enhance the scope, quality, and opportunities for health professions training programs or training activities.

Newly developed course or other training activity is a specific type of training activity that was not in existence at the grantee institution or organization and was developed in its entirety as part of the grant project.

Online degree program is a degree program that requires students to complete all academic coursework through distance learning.

Partner/consortium is an organization or group of organizations that provide(s) resources and/or support to grantees for the implementation of training programs and/or training activities.

Patient encounter is a direct interaction between a designated caregiver and a patient for the purposes of health care.

Practicum is a type of experiential training activity. (See "Experiential training").

Primary care is the provision of integrated, accessible health services by clinicians who are accountable for addressing a large majority of personal health care needs, developing a sustained partnership with patients, and practicing in the context of family and community.

Primary care setting is a facility that is staffed with professionals who provide primary care. (See "Primary Care")

Profession & discipline is a phrase that identifies a general occupation (profession) and, where applicable, a type of specialty within that occupation (discipline).

Program completer is an individual who has completed all requirements for a non-degree bearing training program or training activity. (See "Graduate" for individuals who complete all requirements of a degree-bearing training program)

Publication is a written material that has been submitted to and accepted by a publishing authority as part of a collection of related work.

Race is an individual's self-identified affiliation with one (1) or more of the following origins:

- **White** – A person having origins in any of the original peoples of Europe, the Middle East, or North Africa.
- **Black or African American** – A person having origins in any of the Black racial groups of Africa.
- **American Indian or Alaska Native** – A person having origins in any of the original peoples of North and South America (including Central America) and who maintains tribal affiliation or community attachment.
- **Asian** – A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.
- **Native Hawaiian or Other Pacific Islander** – A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.

Residency is a training program that provides an individual or group of individuals (known as "residents") with advanced clinical training in a specialty area.

Residential background is/are the type/s of location/s an individual has established residence in.

Rural is a geographical area that is not part of a Metropolitan Statistical Area (MSA). *Note: To determine if a specific geographical area is considered rural, go to [HRSA's Office of Rural Health Policy](#).*

Structured faculty development program is a series of curriculum-based training activities that are provided to faculty over a specific amount of time for the purposes of additional training and/or faculty development. Structured faculty development programs can be degree-bearing, certificate-bearing and do not necessarily have to be offered at or by the grantee institution or organization.

Structured training program is a series of curriculum-based training activities that are provided to an individual or groups of individuals over a specific amount of time.

Trainee is an individual who participates in a training program or training activity.

Underrepresented Minority (URM) is an individual from a racial and/or ethnic group that is considered inadequately represented in a specific profession relative to the numbers of that racial and/or ethnic group in the general population. **Note: For the purposes of the health professions, BHW considers individuals who are from the following racial and ethnic backgrounds to be underrepresented:**

- Black or African American
- Hispanic (all races)
- Native Hawaiian or Other Pacific Islander
- American Indian or Alaska Native

Unstructured faculty development activity is generally a stand-alone single training activity provided to faculty for the purposes of additional training and/or faculty development. Unstructured faculty development activities can include conferences, workshops, or grand rounds and do not necessarily have to be offered at or by the grantee institution or organization.

Unstructured training activity is generally a stand-alone single training activity that is not part of a curriculum.

Veteran is any person who served in one (1) of the seven (7) uniformed services of the United States. The seven uniform services include: the United States Army, Navy, Air Force, Marines, Coast Guard, Public Health Service, and National Oceanic & Atmospheric Administration Commissioned Officers Corps.

Vulnerable populations are groups of individuals at higher risk for health disparities by virtue of their race or ethnicity, socio-economic status, geography, gender, age, disability status, and other risk factors associated with sex and gender.

Appendix B: FAQs

General FAQs:

Q1: When is the due date for the performance report?

A1: Performance reports are due by **July 31, 2015** for all programs. No extensions will be granted beyond this date. Failure to submit a performance report by your due date may place your grant in a non-compliant status.

Q2: What dates does the performance report cover?

A2: The performance report submitted by grantees should cover all activities conducted through the grant for the period **January 01, 2015 - June 30, 2015**.

Q3: Is it possible to change data entered incorrectly in a prior reporting period?

A3: No. Data entered in a previous reporting period cannot be edited. It is important that grantees endeavor to provide the most accurate data during each reporting period.

FAQs about the Program Characteristics (PC) forms:

Q4: Do I need to set up my training program again if it is being reused in the current reporting period?

A4: No. If you previously reported on a training program, you do not need to set up the program again. All of your previously used training programs will be displayed in your training program setup menu with a record status of 'Prior Record' displayed.

Q5: What are the status options for the different types of programs?

A5: Structured and Unstructured Training programs use program status options of "Ongoing" or "Complete." All other types of training programs (degree/certificate, internships, fellowships, 1-year retraining, practica/field placements, and residencies) use the status options of "Active" and "Inactive."

Q6: In the PC forms, do we count all trainees in our program regardless of the year of study; include full-time/part-time trainees, etc.?

A6: Yes, as long as trainees are enrolled or participating in the training program identified under Block 1.

Q7: Are we required to provide this information only on the trainees in the programs we received funding for?

A7: The PC tables capture information about the universe of trainees regardless of funding status at your school. This is the only form that collects this type of information in aggregate.

FAQs about the LR-1 through DV-3 forms:

Q8: In prior reports, the LR-1, LR-2 and DV tables reported unduplicated counts. In this current reporting format, will we be reporting duplicated counts for those tables?

A8: The new format requires grantees to provide counts by training program. While we understand that an individual may participate in multiple programs offered by grantees, this new approach will allow us to better understand each program separately.

Q9: In the LR- and DV- tables, are the counts for graduates and/or program completers a subset of the total trainee number or are they to be reported separately?

A9: On the LR- and DV- forms, graduates and program completers are not reported as a subset of the current trainee total. Please report aggregate counts of trainees (e.g., enrollees, residents, and fellows) SEPARATELY from the aggregate counts of graduates or program completers.

Q10: What address should we use to determine if an individual is considered to come from a rural residential background? Do we consider a student's high school address, medical school address or childhood home address?

A10: It depends on the information available. The definition of rural residential background is based on whether an individual has ever lived in a rural area. Grantees may choose to use the address prior to matriculation or the institution's address.

FAQs about the INDGEN form:

Q11: Where do we get the Trainee Unique ID?

A11: Grantees are responsible for developing a unique ID for each individual for which an INDGEN entry is required. Grantees must keep a log of these unique IDs in order to provide semiannual and 1-year follow-up updates through the BPMH system.

Q12: What are the characters of the 7 digit unique ID?

A12: Each unique ID must be made up of 7 alphanumeric characters (meaning that, you may use a combination of both letters and numbers).

Q13: Are INDGEN records from the last semiannual period stored in the EHB?

A13: It depends. All INDGEN records that were reported during prior reporting periods will be shown in your INDGEN table as 'Prior Records' until (a) the record is marked as a graduate/ program completer, or (b) the individual permanently discontinues participation in the training program (i.e., attrition). Any INDGEN record that was marked as having graduated or completed will be transferred into INDGEN-GPC for the next reporting period. INDGEN records for individuals who permanently discontinued training will not re-populate in EHB in the next reporting period.

Q14: Last year we created individual participant codes (Unique IDs) to be included in the INDGEN table. If any of those participants attend a new training cycle this year, should we use the same code for that participant, or create a new code for that participant? Are those codes needed this year?

A14: The purpose of the Unique ID is to track an individual's training participation over time. If the same individual is simultaneously participating in multiple training programs, you should use the same unique ID. Note that each training program must also have a unique name. The same unique ID-training program combination cannot be present in more than one location (INDGEN/INDGEN-GPC/INDGEN-PY).

Q15: What if an individual already listed on INDGEN did not receive a financial award during the six month reporting period?

A15: If an individual from a prior record did not receive a financial award during the current reporting period, please indicate this under Block 11. The record will remain on INDGEN until this individual is marked as a graduate/program completer or a drop-out of the training program.

Q16: Is there an option to report Ethnicity as unknown?

A16: No. While there is an option for "Not Reported" on the INDGEN form, grantees are expected to collect race and ethnicity data on each individual for whom an INDGEN entry is required. If the option of "Not Reported" is selected for an individual's race, ethnicity or any other of the core demographic variables, it is expected that the grantee will collect this information and provide an update by the next reporting period.

Q17: Is reporting the underrepresented Asian distinction no longer included? The loss of the Asian Underrepresented category is a real loss to describing the diversity of our enrollees and their under-representation in medicine – any suggestions on how we can still express this diversity within our report?

A17: The definition of an underrepresented minority (URM) included in the instruction manuals specifically states that a URM is "is an individual from a racial and/or ethnic group that is considered inadequately represented in a specific profession relative to the numbers of that racial and/or ethnic group in the general population". While some professional or accrediting organizations collect detailed information on Asian subpopulations, data sources for the general population (i.e., the Census) do not. Therefore, it is not possible to determine that specific Asian subpopulations are underrepresented relative to the general population. Furthermore, federal agencies have been directed by the Office of Management and Budget to

collect race/ethnicity data in a manner consistent with that used for the Census. As a result, all race and ethnicity categories displayed in the INDGEN sub-form are identical to those used in the Census.

Q18: Can we use our institutions definitions/standards for disadvantaged background?

A18: The BHW definition of disadvantaged background is included in the glossary of each instruction manual. As long as an institution's definition or standard does not contradict the federal definition of disadvantaged, then grantees may choose to count individuals who have been deemed disadvantaged by the institution. Otherwise, you must use the definition for disadvantaged background located in your program manual glossary.

Q19: Do we report full time faculty who receive salary support for teaching or administrative responsibilities?

A19: It depends on whether a specific faculty member is part of the project. For project staff (including faculty), this information is not required as it is captured in your grant's budget documents.

Q20: Do conference registration fees count as financial support?

A20: Yes, but only for non-project staff.

Q21: How do we find out an individual's family income?

A21: The institution's financial aid office should have that information, as part of the required application for financial aid.

Q22: For veteran status, are we asking only for the student or trainee's status, or the trainee's family status (e.g. dependent of veteran, spouse of veteran, etc.)?

A22: Only the trainee's status should be reported.

Q23: How is the academic year funding total calculated?

A23: The academic year total is automatically calculated in EHB as the sum of both semiannual amounts within the same academic year. This means that during data entry for the first semiannual period, the automatically calculated totals for the current reporting period and academic year total will be the same. When you enter, save, and validate the funding amount for the second semiannual period, the academic year total will automatically recalculate and will sum the two semiannual amounts.

Q24: How is the cumulative funding total calculated?

A24: The cumulative funding total is automatically re-calculated each semiannual period in EHB. This is the total of each semiannual amount that has been entered for the individual record either (a) across the life of the grant or (b) since the BPMH system has been in use starting with Academic Year 2012-2013.

FAQs about the INDGEN-PY form:

Q25: How do I use the INDGEN-PY form?

A25: One year after an INDGEN record is marked as a graduate/program completer, you will be asked to provide an update on the individual's employment/enrollment status. The INDGEN-PY form will automatically pre-populate with the individual records that appeared in the INDGEN-GPC form in the previous reporting period.

FAQs about the Experiential Training (EXP) forms:

Q26: What training sites do I need to report on this form? Is it all of the sites our program uses?

A26: Grantees should report only on sites used to provide training to students, trainees, or faculty supported by the grant during the current reporting period.

Q27: Our hospital provides multiple training sites for our trainees. Do I list the hospital or the specific clinics and offices within the hospital?

A27: You should list the specific clinics and offices within the hospital that provide training to supported trainees for the EXP forms.

Q28: Do I need to list a site more than once on EXP-2?

A28: You may need to list a site multiple times on the EXP-2 form. For sites that provide training to students, trainees and faculty from different training programs, it should be listed on the form for each training program the grant sponsors.

Q29: How can I report Interprofessional team-based care at the training sites?

A29: Interprofessional team-based care reporting is a three-step process on the EXP-3 form. After identifying the training program and site, the first step is to select ALL of the professions and disciplines represented on the interprofessional team (including the profession of the principal-HRSA sponsored trainees). The second step is to provide the number of trainees (by discipline) who were trained by the HRSA-sponsored program (principal trainees). The final step is to provide the number of other trainees (by discipline) who were trained at the site, alongside the principal trainees, but were not enrolled in the HRSA-sponsored program.

FAQs about the Curriculum Development and Enhancement (CDE) forms:

Q30: What if courses are created with a variety of funding sources?

A30: Grantees should complete a CDE-1 entry for each course or training activity that was developed or enhanced using any amount of HRSA grant funds.

Q31: Why do only some of the courses I entered last time appear in the CDE-1 form this time?

A31: Only courses that were marked as ‘Under Development’ or ‘Developed but Not Yet Implemented’ will pre-populate the CDE-1 table. Courses marked as ‘Implemented’ will pre-populate the new CDE-1a table.

Q32: For CDE-2, do we report on all attendees or only those directly funded by a BHW-funded program for this reporting period?

A32: For the purposes of the CDE-2 form, count all individuals trained (whether or not the individuals received direct financial support) through courses or training activities developed or enhanced using any BHW funds during the current reporting period.

FAQs about the Faculty Development (FD) forms:

Q33: What is the difference between a structured faculty development program and an unstructured faculty development activity?

A33: Structured and unstructured faculty development programs differ in a few ways. Generally, structured faculty development programs are administered over a longer period of time and involve multiple meetings/sessions. Additionally, structured programs tend to be curriculum-driven, and may lead to the conferral of a degree or certificate. In contrast, unstructured faculty development activities are shorter in duration, and are single, stand-alone trainings. Faculty development activities include conferences, workshops, and grand rounds.

FAQs about the Continuing Education (CE) forms:

Q34: For CE-2, do we report on all attendees or only those directly funded by a BHW-funded program for this reporting period?

A34: For the purposes of the CE-2 form, count all individuals trained (whether or not the individuals received direct financial support) through courses or training activities developed or enhanced using any BHW funds during the current reporting period. Individuals attending CE trainings should be current providers, rather than students.

FAQs about Technical Support & Assistance:

Q35: Who do we contact if we need technical assistance entering data in EHB?

A35: Grantees should contact HRSA's Call Center for any type of questions related to the performance report. The Call Center can be reached via phone at 1-877-464-4772.

Q36: Where will grantees be able to locate the instruction manuals for the performance reports?

A36: Grantees will be able to access their program-specific instruction manual through the EHB. In addition, the manuals will be posted on the BHW grants website at <http://bhw.hrsa.gov/grants/reporting/index.html>.

Q37: Is there a way to look at the data forms required for my program without logging into EHB?

A37: Yes. Grantees will be able to view a program-specific overview of the required performance measure forms on the BHW grants website at <http://bhw.hrsa.gov/grants/reporting/index.html>.

Q38: Are reports from prior years stored in the EHBs?

A38: Yes. Grantees can locate reports from prior reporting periods in EHB by using any of the following methods:

- a) Clicking the 'view prior period data' link within a form or under your Resources tab;
- b) Going into your grant folder and searching for previously completed reports; or
- c) Clicking on the "submissions" link in the left side navigation menu.

Q39: Will the information we are submitting in this reporting period be automatically used to populate the forms in the future?

A39: Yes. Depending on the form, certain data fields will prepopulate for future reporting periods based on the data you enter when the record is initially created. For example, information reported on the EXP-1 and EXP-2 forms for training sites used will carry over each reporting period. Similarly, much of the information reported on the INDGEN form will also carry over each reporting period until the individual completes their specific training program or permanently leaves before completion.
